

## UNIT 8: ACTION!

W

My favourite film genres are comedy, fantasy and adventure.

I like these film genres because the script is very interesting and the cast is generally good and it acts well.

I think the best film is "Twilight".

Twilight is about a normal girl called Bella Swan, she moves to live with her father in Forks, where she meets Edward Cullen, a very handsome and mysterious boy. She falls in love with him but he does paranormal things and she investigates and discovers that Edward is a vampire. She falls in love with another boy, Jacob Black, who is a childhood friend, but Jacob has another big secret, he's a werewolf.

The location of this film was Washington and Oregon. / The film is set in W. and O.

In the film stars Kristen Stewart, Robert Pattinson and Taylor Lautner.

I like it because it's a different movie, it's romantic, but it also has action and fight scenes.

What's more, the soundtrack is great and the cast is amazing, they act very well.

And all scenes are believable too.

## Unit 8: A film review

My favourite film genres are romantic films. I think the best film is "Three metres over the sky".

The film is set in Spain. It's about a love story between a boy who has got many problems, called Hugo, and a good girl called Babi. Hugo is a bad boy who fights against people and participates in illegal races. Babi is a good girl who studies and obeys her parents. They fall in love and Babi discovers that Hugo is a very romantic boy. It seems the best love story but, in the end, Babi meets another boy and she breaks-up with Hugo. Hugo, who is very sad, travels to London to forget Babi. Mario Casas is Hugo, and the film also stars María Valverde as Babi.

I like it because it's very romantic and the end is very sad. I'm waiting to see "I have desire of you", the second part, it will be in cinemas in July.

## UNIT 8 A FILM REVIEW

At the moment, I've more than one favorite film genre. I like adventure films and romantic films, too. I like these types of films because they're really interesting and beautiful as well. However I hate science fiction films! For me they're boring and illogical, this type of films never could happen in normal life. What's more, in this type of films monsters usually appear.

I think that the best film that I've seen is 'Noah's diary'. It's a story about a great love between 2 people, Noah and Allie. He's a man of lower class and she's a woman of high class. Noah went to World War II and Allie worked helping soldiers. There she met him and after that she married him. World War II finished and Noah loved Allie again. Some years later, she suffered from alzheimer and Noah read a page of his diary every day. Allie died and Noah knew that she was his love forever. It stars Ryan Gosling and Rachel McAdams

I love this story because after you watch the film, you will learn that true love exists. What's more this film is great because the characters are fantastic and the effects are real! If you like romantic films, I really recommend this film.

## unit 8: Action!

My favourites types of films are actions films, cartoon films and comedy films. My favourite film is Titanic.

It's about a romance in a transatlantic ship. The main actor is Leonardo DiCaprio, he interprets a boy called Jack Dawson ~~up~~ hasn't got any money but he wins in a cards' game two tickets for him and his friend, Fabrizio, to go in the Titanic to America.

The other main actor (in this case actress) is Kate Winslet. She interprets Rose Dewit Bukater who falls in love with Jack. She's a rich girl and she's going to get married with a rich man but she loves Jack.

Finally Jack died because of the titanic, the indestructible ship, sank.

I like this film because it's a mixture between a documentary film, a tragic film and a romantic film. I really recomend it. You'll like it and enjoy it.

My favourite genres are fantasy, comedy, anime, Science fiction and thriller. I love Tim Burton's films. I like Harry Potter's films too and I think the best one is Harry Potter and The Prince of Mistsy.

Harry Potter

Dumbledore

The film is set in Hogwarts. It's about a boy called Harry Potter who has to prepare him to fight against the lord of the dark and one has to ~~die~~ die but he has to save Hogwarts.

Harry is played by Daniel Radcliffe and the film stars Emma Watson as Hermione his friend.

I like it because of the plot and I love the role of Hermione. What's more, all the characters are very real and funny as well. The special effects are really fantastic. If you like watching films you've to see that film.
