Then

When I was younger, I had short hair and brown. I had small eyes and brown. I was very friendly and restless. I learned early to walk, when I started to walk, ^{I was} ~~had~~ 9-to months. When I was two and a half years, my brother was born and I was very responsible and protective. I used to entertain a lot with toys. My favourite toys were horses and lizards. I used to go with my father to the country. I liked horses and dogs, because I lived in the country with many dogs and horses.

When I was younger

when I was younger I used to be a short boy, I was skinny and I had short hair.

I used to have blonde hair but now it is brown.

I used to like mushrooms and fish, now I hate them.

I used to be very shy and less confident.

I used to play football every week in a team, now I only play at home.

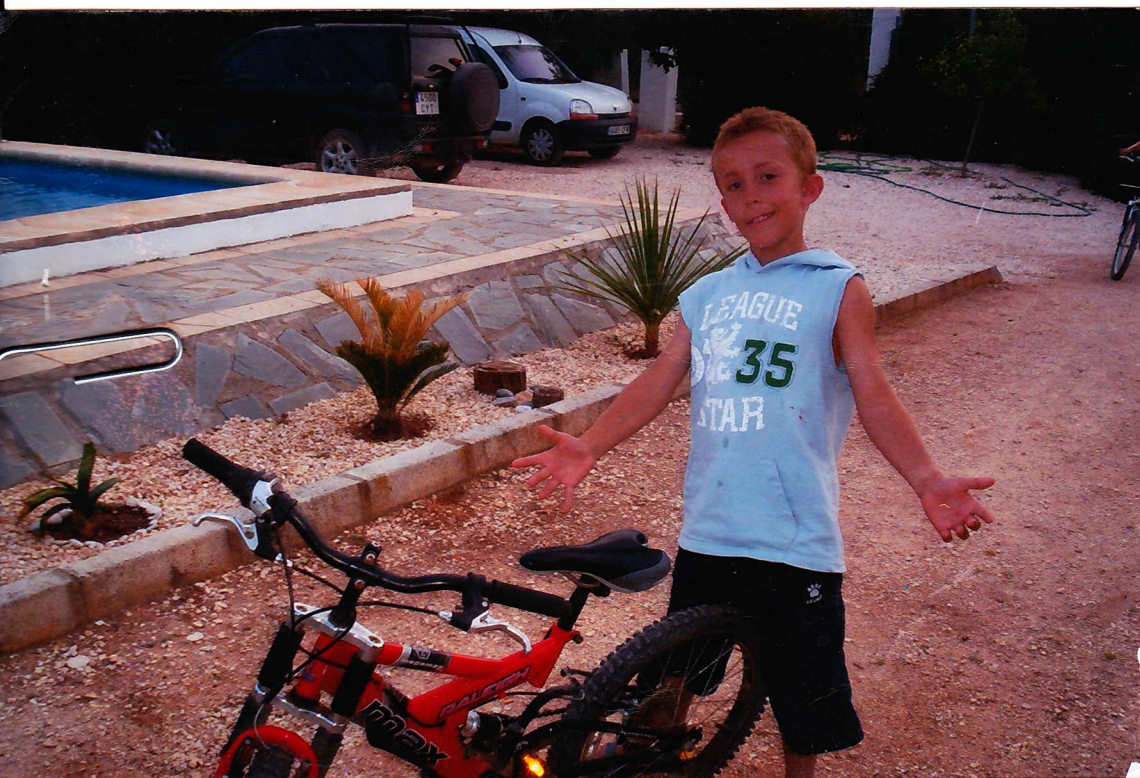

I didn't use to play videogames a lot, now I do.

I also used to study a lot but now I study less, but

I will do more.
