- Osuna is in the south of Spain. It's the second biggest city in Seville and 18,000 people live here. Most people speak Spanish.
- Osuna is a beautiful place to visit! You can visit museums, parks and ~~the~~ Bull Ring (the most beautiful place). The most popular tourist spot is the "Colegiata". I often go there at the weekend. We have an important festival in May called the Fair (people dance "sevillanas")
- The best way to travel is by car, because it's more comfortable than motorbikes. It's cold in winter and very hot in the summer.

## My town: burlada-burlata

Burlada is in the North of Spain. It's one of the biggest cities in Navarra, twenty-five thousands of people live there. Some people speak Spanish and some speak Euskera.

Burlada's a nice place to visit! You can see great parks, big buildings and the church of San Fernando (the most beautiful building). The most important turist spot is the way of the river Arga- I often go there on weekends. We have lots of festivals but the most important is in July, it has no name but is similar to the San Fermes in Pamplona.

The best way to travel is by bus because it's faster than walking and it's very safe. You can also go skating but it's really cold in winter and very rainy in summer!

This is my town, how is yours?  
what like
