

Mythical monsters

The **Chimera** was a mythical monster made up of 3 different animals. It had a lion's head, a goat's body and a snake's tail. It was big and dangerous. It breathed hot fire like a dragon. It was a sign of volcanoes and storms.

Can you make a mythical monster? Draw the head, the body and the tail of 3 different animals to make a monster. For example, it can have a horse's head, a lion's body and a fish's tail. It can have a man's head, a snake's body and a monkey's tail. Decide and draw!

Now think of a name for your monster and write about it. Use the example of the **Chimera** to help you.
