

My Favourite Shop

I like clothes shops so my favourite shop is Berhka.

Berhka is a chain of clothes shops founded in La Coruña

By a businessman called Amancio Ortega Gaona.

It opened in April 1998.

The shop belongs to Inditex, one of the largest fashion retail groups worldwide. It has more than 4780 shops in 77 countries in Europe, América, Asia and Africa.

It's open everyday on the weeks except for Saturday and Sundays.

I like this shop because I'm thin and some clothes from other shops don't fit me and I always find clothes that I want in Berhka.

I love the clothes from there because the clothes are always stylish and they aren't extravagant.

Sometimes the clothes are divided into sections:

The first floor is women's clothes and the second floor is for men's clothes.

This shop isn't just about clothes. There are many pretty accessories and shoes that I also like.

If you like modern and attractive clothes, Berhka is a shop where you will find what you are looking for.

UNIT 6: SMART SHOPPING

I have a lot of favourite shops because I really like shopping and what about you?

My favourite shops are clothes shops such as Stradivarius, Bershka, Mango, Zara and Primark. In those shops, you can buy clothes, shoes, bags and different accessories, but these are very expensive. So, I buy them in sales. The shops are very big, and they're always lively and full of people. It's very stressful! I think the worst thing is that these shops are very famous and everybody buys the same clothes.

If you like every type of clothes, you will buy something from those shops because they're cheap and the clothes are beautiful.

MY SHOP

If you like going shopping, I suggest you must go to Plaza Mayor in Malaga.

You can go when you want, because it's always open, and you can do a lot of different things, so you won't be bored there.

Plaza Mayor is a big commercial centre which has many shops, restaurants, cinemas, playground areas... where you can go with your family or your friends guaranteeing you a really good time. It's an ideal place to buy presents or just to spend the day doing what you want. There, my favourite shop is called "Funky Fish". It's a shop where you can find different objects and products like clothes or school accessories. The most interesting thing about this shop is that all the products sold are strange and unusual, and that's why they're so special for me. I would prefer to buy exclusive objects because anyone else would wear it. However if you want to buy in this shop, you must save money because it's a bit expensive, but as like someone says: "The cheap things, are sometimes the most expensive!"

In conclusion, if you like being different, you would like to go to Funky Fish.

WRITING

My favourite shops are Nintendo World, Ârigata, Nostramo and Fnac, I normally use them to buy comics, books, gifts for friends etc. They sell anime and manga like the best, and you can find any toy game, badges, books, posters and cosplays of your favourite TV or game, usually the cosplays are of mangas and anime.

In Spain, I recomend Ârigata, it's a cool shop in Seville, you can find anything but if you buy through the Internet, I recomend you Taobao, using the "euro" you can buy a lot of things because the shop is in China and they use the "yuan" one of the cheapest things to pay, it's like money.

I really love these shops, but if I want something I need to work it is really hard.

My Favourite shop

My Favourite shop is the "Corte Inglés" in Seville. The "Corte Inglés" is open Monday to Saturday and some holidays, too. It's a great store with 5 different floors.

Favourite shop

My favourite shop is Stradivarius in my city. It's open all days except for Sundays. It's always an enormous shop. We can see different areas in the shop. All of them are very interesting. One is for casual clothes, sweatwear and tracksuits; other area of the shop is formal clothes, coats, dresses, trousers ... There are so many and beautiful shoes, I love it!

Finally, near the salesperson, there's a shelf with a lot of complements (necklace, rings, earrings ...).

You can take the clothes and try them on because you can need other size or you may not like them later and If you go with a friend, it will be funnier than if you go alone. When I go shopping, I usually see all the shop, I love all types of clothes. Sometimes, clothes can be very expensive and If I need them urgently, I'll buy them but unless I need them, I will buy them at sales.

In my opinion, Stradivarius can be one of the best shops for young girls, for me, it has beautiful clothes although sometimes it also has ugly clothes.

Going shopping in this or in another shop can be very exciting, funny and very sad for the wallets of parents.
